## **Establishment of Kansai's First Comprehensive Training Facility! Its Name is Momo Training Lab (Commonly Known as MOMOTORE)**

**- Strengthening the foundation for improving operational safety, service quality, and stable human resource development -**

- **The first comprehensive training facility in Kansai has been established at Kansai Airport**
- **Improving operational safety, quality, and service standards**
- **Building a more systematic and stable training system to strengthen human resource development**

**Osaka, July 31, 2025** - Peach Aviation Limited ("Peach"; Representative Director and CEO: Kazunari Ohashi) announced the establishment of the first comprehensive training facility in Kansai, Momo Training Lab (hereinafter referred to as "MOMOTORE"), at Kansai Airport.

MOMOTORE operates a comprehensive training facility equipped with an Airbus A320 Flight Training Device (FTD) for pilot training, a cabin mock-up featuring the actual cabin section of an aircraft for cabin crew training, door trainers, emergency evacuation slides, and airport counters. The facility also includes classrooms for theoretical instruction and other training activities.

MOMOTORE has introduced world-class facilities for the purpose of training personnel in occupations that support airline operations, such as flight attendants, cabin attendants, and ground staff. This enables training and education in an environment close to that of an actual aircraft, allowing for the establishment of a flexible and efficient education and training system. In addition, we are currently coordinating the addition of functions to enable training and testing for the national qualification of airline engineer.

Through the establishment of MOMOTORE, Peach is committed to upholding its vision of "A flight full of respect for everyone" by maintaining a strong foundation of safety and striving for continuous improvements in service and quality.

<Comment from Peach Representative Director and CEO Kazunari Ohashi>

We are deeply honored to have been able to establish our long-awaited first in-house comprehensive training facility in Kansai. MOMOTORE will serve as a cornerstone for Peach's continued growth, acting as a comprehensive training facility where employees can experience and train for a flight full of respect, while strengthening talent development and playing a central role in improving overall quality. Through meticulous training, Peach will strive to improve both operational and service quality, always prioritizing safe operations, and delivering peace of mind and the best experience to our customers.

For more details about MOMOTORE, please refer to the information below.

<MOMO TRAINING LAB(aka:MOMOTORE)>

[Location] 11 Senshūkūkōnaka, Tajiri-cho, Sennan-shi, Osaka, Kansai Airport Terminal 2

[Facility Area] Approximately 751 m<sup>2</sup>

[Main Facility Overview]

Job Role	Equipment/Facility	Overview
Pilot	- FTD (Flight Training Device)	Used for education and training for captain development. The introduced FTD differs from typical open displays by adopting a collimated display. This enables the reproduction of a more realistic service environment, facilitating high-quality education and training.
Cabin Crew	- Mock-up - Door Trainer - Emergency Evacuation Slide	Conducting simulated training for acquisition and maintenance of cabin crew qualifications in an environment close to actual aircraft, including safety and security operations, emergency situation handling, and in-flight services, allows us to achieve improvement of both safety and service quality.
Ground Staff	- Counter - Universal design ramp	Training for passenger service agents is conducted in an environment similar to a real airport counter, simulating actual customer service situations.
All	- Classroom	Used for lectures and reflections.

About Peach ([www.flypeach.com/en](http://www.flypeach.com/en))

Peach is based at six airports: New Chitose, Narita, Chubu, Kansai, Fukuoka and Naha, and services 25 domestic routes and 15 international routes with a fleet of 36 aircraft. In addition, from April 10, 2025, the Osaka (Kansai) – Seoul (Gimpo) route has launched, further enhancing the international routes network. We will continue to prioritize safety and pursue fundamental quality, aiming to be an airline loved by even more customers.
