Advancing the App Check-in Start Time Introducing the New “Auto Check-in” Feature!

**-Reduce the hassle of check-in with just your smartphone and
enjoy a smoother travel experience-**

- **The app check-in start time will be extended to 120 minutes before the scheduled departure time**
- **A newly added “Auto Check-in” feature enables the check-in process to be completed automatically**
- **Enhance convenience and peace of mind, helping avoid congestion at the airport and ensuring a more comfortable journey**

Osaka, December 10, 2025 - Peach Aviation Limited (“Peach”; Representative Director and CEO: Kazunari Ohashi) has announced the expansion of the start time for App Check-in* reception from the conventional “90 minutes before” the scheduled departure time to “120 minutes before,” starting December 17, for the purpose of improving customer convenience. Furthermore, Peach will newly introduce an “Auto Check-in” function that automatically completes check-in when it has been set in advance.

App Check-in applies to domestic flights and is a function that allows passengers to complete check-in procedures regardless of location. By expanding the reception time, more leeway before departure is created, and customers such as those traveling with children or busy business travelers—who want to make effective use of their time— can proceed with procedures comfortably while avoiding congestion at the airport.

Also, the newly introduced Auto Check-in function will automatically complete check-in at 120 minutes before the scheduled departure time when it has been set in advance in the app between 48 hours and 150 minutes before departure.

By using these services, check-in procedures will become even smoother.

- If you do not have checked baggage: You can go directly to the security checkpoint without stopping by the airport counter or the self-service check-in machines (KIOSK).
- If you have checked baggage: The procedure is completed simply by checking your baggage at the airport counter.

For details on the expansion of the domestic App Check-in reception time and the Auto Check-in

function, please refer to the Peach website and the next section.

At Peach, under the vision of “a flight full of respect for everyone,” we will continue to make further efforts and improvements so that we can develop initiatives that enhance customer convenience through the improvement of our digital services.

***App Check-in and Auto Check-in are available only for domestic flights.** For some reservations—such as those made through travel agencies—these services may not be available. For details on usage conditions and precautions, please check the App page and the Auto Check-in page below.

About Peach (www.flypeach.com/en)

Peach is based at six airports: New Chitose, Narita, Chubu, Kansai, Fukuoka, and Naha, and services 25 domestic routes and 15 international routes with a fleet of 36 aircraft. In addition, from April 10, 2025, the Osaka (Kansai) and Nagoya (Chubu) - Seoul (Gimpo) routes will inaugurate service, further enhancing the international route network. Peach will increase the number of flights on Osaka route starting February 2026, operating up to 8 round-trip flights per day between Osaka (Kansai) - Seoul (Gimpo / Incheon). In addition, from January 1, 2026, the Tokyo (Narita) - Taipei (Taoyuan) route will increase the number of flights to 3 round-trip flights per day, further expanding travel options. We will continue to prioritize safety and pursue fundamental quality, aiming to be an airline loved by even more customers.
