Osaka August 22, 2023 - Peach Aviation Limited (Peach; Representative Director and CEO: Kazunari Ohashi) announced today its route plan for the winter schedule (October 29, 2023 to March 30, 2024). Also start sales of air tickets for the same period from 3:00 pm today, August 22 *1.

With regard to our international routes, we have gradually begun to increase the number of flights to Taipei from Narita, Kansai, and Okinawa in response to the recovery of demand for inbound tourism. However, due to a burgeoning demand for inbound tourism, we will further increase the number of flights for the Kansai to Seoul (Incheon) route from 21 to 28 round trips per week and the Kansai to Hong Kong route from 7 to 21 round trips per week. In addition, we will review and optimize our allocation of aircraft to domestic versus international routes. We plan to suspend some domestic routes or suspend them in periods of low seasonal demand, in conjunction with our introduction of new international routes in the winter schedule.

Peach continually strives to put safety first while connecting countries and regions with each other. We aim to provide an ever more carefree way to travel and to always be by the side of the wide variety of customers that we serve.
