## 2) Reservation status overview

Some variances are seen for domestic routes due to unfavorably scattered sequences of days. Bookings are steady throughout the period for international routes, particularly for the Hong Kong and Taipei routes. Departures from overseas destinations are steady during the earlier part of the period due to consecutive holidays, and departures from Japan are steady in the latter portion, with reservations for some flights sold out soon.

Seats are still available on some flights, depending on the dates and routes. Reservations may be made on the Peach website at [www.flypeach.com](http://www.flypeach.com). Information on seat availability is updated daily on the Peach website.

We look forward to serving you on our flights.
